*By local authority area

Share of EU referendum vote for leave (local authorities in Great Britain)

Leave vote was strongest in regions most economically dependent on EU

The regions with the highest share of votes for Leave also tend to be the most economically intertwined with the EU. A higher percentage of East Yorkshire & Northern Lincolnshire's economic output is sold to other EU countries than is the case for any other UK region, yet 65 per cent of its electorate voted to Leave

Conclusions

Conclusions

- Leave voters were older, more rural, less education, and opposed to rising immigration

Conclusions

- Leave voters were older, more rural, less education, and opposed to rising immigration
- Remain voters were younger, more urban, more likely to have attended university

Conclusions

- Leave voters were older, more rural, less education, and opposed to rising immigration
- Remain voters were younger, more urban, more likely to have attended university
- Voters divided on what they want from Britain and views of what impact it will have

Conclusions

- Leave voters were older, more rural, less education, and opposed to rising immigration
- Remain voters were younger, more urban, more likely to have attended university
- Voters divided on what they want from Britain and views of what impact it will have
- Britain is leaving the EU, but the type of Brexit remains unknown

*'Let's never ask the public
for their views ever again'*
